Dear Hiring Committee:

I am excited about your Forklift Operator opening. My professional and individual experiences align with the responsibilities of the position. I am certain I could add significant value to your team.

I am a person that excels with basic math. Since I was in the third grade, math has been my favorite subject. I can add, subtract, and multiply numbers without the assistance of a calculator.

I am comfortable with completing general inventory and workorder processes. I know the general function of the tools used within the industry: pallet jack, forklift truck, and pallets. I view this position as the foundation for me to build my warehouse career.

I have no problem with adapting to the best practices. I am a collaborator that grows from positive and constructive feedback.

My resume includes additional details regarding my education and professional experiences. I look forward to the interview process. I appreciate your consideration.

Sincerely,

Keith Selby
